

Marion Choules

I attended Barnstaple Girls Grammar School in 1953. I had an amazing Art teacher called Felicity Halfpenny who instilled my love of art throughout my life. I drew and painted for pleasure.

In 1998 I joined an adult painting group in Paignton, South Devon where another teacher really inspired me her name was Penny, sorry her last name escapes me. I was a member until 2001. It was a mixed and enthusiastic group.

Three years ago, I joined Art for Leisure and Pleasure, where I have been encouraged to continue with my art and participate in the groups exhibitions. I would like to mention Bill and David and thank them for their encouragement.
