

Angie Golding

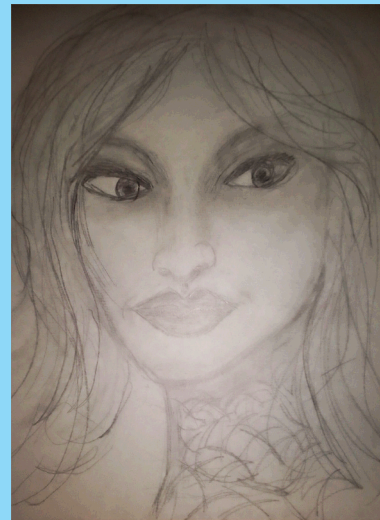

Angie Golding describes herself as a free spirit and loves the world of art. She moves through different media depending on the mood that takes her, and of course, what the subject matter demands.

Since retiring from full time work Angie has returned to one of her all time passions which is art. Originally from London, she spent fifteen years in Somerset before moving to Devon in 2021 .

Working in all mediums, her current favourite is pencil and graphite with the precise strokes and shading that can be achieved. Angie's skills cover drawing from life, portraiture, and bold watercolours. She lives in Barnstaple with her partner, and is a keen gardener. Angie has pet cats, a dog and is a fan of all things animal.
